

Maryland is the national epicenter of cybersecurity activities, but the industry is facing a critical shortage of workers. State-of-the-art job training in cybersecurity and information assurance is available to eligible job seekers to increase the pipeline of qualified workers in this high-demand field. Cybersecurity measures protect and defend information and information systems by ensuring their confidentiality, integrity, and authentication.

The field of Cybersecurity is projected to grow by 41% in the next eight years. Still an emerging field, the median hourly earning is **\$38 an hour**.

ELIGIBILITY REQUIREMENTS

You must be age 18 or older, seeking full-time employment within one year of certification, and one of the following:

1. **A new worker** – unemployed, and seeking education/skills to obtain employment in the cybersecurity industry,
2. **Dislocated worker** – laid off or terminated and unlikely to return to field of employment,
3. **Underemployed** – currently employed part-time or in a low wage job, **OR**
4. **Incumbent worker** – currently employed in the IT field, and seeking to upgrade job skills that will lead to promotion. **EMPLOYERS MUST APPLY FOR THE PROGRAM.**

Veterans will get priority of service and will need to show documentation of service.
